316 ▾ So much going on...

To be honest, I feel betrayed by GEOTUS who asked us to be there, that'd he'd have "new evidence" to prove what really happened.

Except he didn't release one damn thing.

Makes me wonder about a lot of things at this point...

72 ▾ They should have let the courts sort that out. VP Pence could have said "Because of the numerous letters I have received asking me to challenge these electors, I am hereby asking the State Legislatures to reconvene and address these questions of Election Fraud."

Then the Dems could have objected and asked the Supreme Court to rule on the issue.

If he tried and it failed that's a lot different than just letting the cheaters win.

MUCH better to try and fail than never to try at all!

▼ We the people. That's why we came. Stop putting everything on Trump's shoulders.

The battle shall never end. Trump stood for our freedoms but now it is time we must stand for what is ours and his.

He is one. We are millions.

If he drops the torch it is sad but we must respect one of the greatest torch carriers of all time and let it inspire us to pick the torch back off the ground and carry one forward into the darkness.

He did not ask us to be there for him.

We make our presence known for ourselves, we exist.

Trump's work is done. This is even bigger now.

6 ▾ It's time that we become more self sufficient. Time we stop running our hard earned money through the corrupt system and funding these swamp traitors. If they can't tax us, they become powerless. This won't solve all of the problems in DC, but it is a step in the right direction I have been thinking about a lot lately.

For example, get off the electricity grid and find ways to generate our own power. We need to band together and start our own made in usa clothing supply chain, food supply chain. Stop relying on these gigantic corporations that pump millions of dollars into swamp creatures. Get off of facebook and twitter and stop giving them all the power. And we need to do a better job of educating our fellow neighbors about this information. We don't do a good job with "boots on the ground" campaigning.

economy, but the amount of attention he has drawn to politics.

I realize some people are upset by what happened today but there is also no shortage of shills capitalizing off of this as an opportunity to try to demoralize us. All I can say is that politicians may come and go but peoples values seldom ever change, and democrat values are still an Incredibly unpopular stance to hold. I really doubt that any of us that got involved in Trump's movement didn't discover what their political beliefs are on a myriad of topics. Nobody around here is a single issue voter. Cops literally are LEGALLY allowed to place IQ maximums on who they recruit.

▼

Yes, there is even legal precedent to back this statement up. They can disqualify you from being hired if you test as too intelligent, and they actually do this. They went to court to fight for their right to do this.

Cops are a bunch of meatheads who will follow orders and are more than happy to be violent since they have no consequences. Some of them become cops BECAUSE of that reason.

To them and the government, you're just cattle whom they extract their paydays from.

The police are the armed thugs of the regime, that's the one thing ANTIFAGS get right. They're muscle for hire, they will obey whoever is giving them their shekels. They'll gladly come to your home and shoot your dog (just your dog, if you're lucky) and trample all over your constitutional rights if a politician orders them to. They are not your friend. Do you think they GAF about how it is our God-given right to keep and bear arms and that the 2nd Amendment tells that it "Shall not not be infringed" when traitorous politicians decide it's time to hand over your guns?

Sure, tons of brave small town cops are honorable patriots, like those sheriffs who refused to enforce red flag laws. But they're the minority.

Don't you ever forget that. They are NOT your friend.

Same. I had a super uneasy feeling as I was walking to the Capitol today. There was just an energy in the air you could literally feel. As word spread that Pence had betrayed us (Lin Wood redeemed-never doubted him) the energy got more hyped. I can't imagine I'll ever be part of a more historically significant day in my life. I still am having trouble wrapping my mind around what the fuck just happened. Stay safe patriots still in DC. My ass split before the curfew lockdown. Counting my blessings that some tear gas and percussion frags were the worst I got today. My heart breaks for that female vet. We saw her getting wheeled out on the gurney. So surreal.

▼ I feel similar in that I have no idea what to do right now, and I trust no politician to fix the system at any level. Until today, I was holding on to hope that Trump had a good plan and we might see fortunes improve. In my opinion, this was the last opportunity for somewhat peaceful resolutio  I hope that Trump has some sort of last-resort-burn-down-the-house-with-him plan in his back pocket.

We'll know in a couple weeks

this level of corruption adequately purged in my lifetime.

Hell, it was 4 years after the Boston Massacre until the first Continental Congress convened, and another year after that until the real fighting began. Even the French Revolution took 3-4 years from the storming of the Bastille until shit really hit the fan. We may be in for a slow, shitty ride, or we may not. I know that I have no clue what it's going to be, and I'd be surprised if anyone else does.

All I can do for now is hang tight, make preparations for my family, and look for paths forward. No idea what those paths may look like now, but I expect any opportunities will make themselves apparent as time goes on. It's also possible that I may never be at the right time or place to make a significant difference. If that's the case, c'est la vie; I can at least continue shitposting for morale.

building, namely the barbarian and the fat gamer are actually antifa and not Maga. I don't know for sure but I really doubt they are antifa, especially since every single pice of evidence has been fake (a tattoo from a video game being called a hammer and sickle, a guy protesting WITH BLM despite haveing red white and blue face paint.)

Here's why this boils my piss, what happened today is a message from conservatives to rinos and the county that we are fucking sick of this shit, that we are about to start crossing those red lines and if the dems keep pushing they will get a war. Rinos and faggots who don't like the optics trying to shift blame to antifa in disguise completely destroys that message, it further cements that you can shit on conservatives all day and they will accept defeat with dignity I'm hopes of doing again next time.

Maybe they will start burning shit too, maybe they will be armed. Rinos shouldn't be trying to pass this off on antifa, they should take the message for what it was, consider the second amendment and work for the American people before Johnny reb comes back for seconds.

I'm feeling more sad than angry right now actually. Maybe I'm feeling emotional because I'm a woman, but these emotions are useless. I hope this feeling passes very soon (like in an hour or two) because I really need to be strong and see things more clearly. I've been crying since Trump said we feel your pain, we love you, go home. I'm trying to stop, but I guess it needs to come out. It's so hard to look at all this with n emotions running so intensely. But I'm going to be strong. I won't let this sadness consume me.

admittedly discouraged by POTUS' roll over today. all the MAGA energy that took the capitol was wasted and not given any direction.

mad props for everyone who went to DC and stood up.

3 Well if we have to suffer for 4 years of Democrat Rule I hope they screw up so bad the people who voted for them suffer the most ! I'm already pulling all my investments and putting them away so I don't go broke when the market crashes ! I've been preparing for the "What if" scenario for a year now I'm going to punish the left by putting as little as possible back into the economy and trying to only use companies who are right learningP.s. Hide your Guns boys you are a fool not to do so at this point !

2 Wait a second, is that Pence's arm and hand in the picture?

Trump needs to support those Patriots out there, they are risking everything for him and the USA.

2 Don't fall for the negative rhetoric on here against PDJT. THAT is part of what today was about. It looked like a Color Revolution with Pence at the helm along with the many traitors in the GOP. In a Color Rev., the leader who has been removed in a coup is then demonized. Open your eyes to what is really going on.
